compared to 2020*

*BuildForce Canada

You like working with your hands.

You are creative.

You have an eye for colour, line & proportion.

RESPONSIBILITIES

- Read sketches & blueprints to calculate materials required
- Measure and construct corners first, using a plumb line & mason's level to ensure level layers
- Spread mortar and prepare and lay bricks, concrete blocks or other masonry units
- Cut and trim bricks & concrete blocks to specification using hand & power tools
- Understand properties of various mortars & other bonding materials, and how to handle different masonry units

WHAT YOU'LL NEED

Entrance Requirements

Apprenticeship Program:

4 years, includes a minimum 5,000 hours of technical training, on-the-job training and exam. Journeyman certificate awarded after successful completion. As an apprentice, you also earn while you learn

To potentially qualify for credit to reduce length of apprenticeship term: Completed courses of study, bricklayer-related work experience or related journeyman certificate **AND** employer's recommendation.

To apply for a Prior Learning Assessment: Previous training/work experience in the trade **AND** desire to determine level of skill & knowledge or advanced standing in an apprenticeship program.

Key Skills & Attributes

(technical training and on the job)

- Reading, communication, numeracy and problem-solving
- Ability to work with your hands
- Ability to work outdoors in diverse weather
- Strength and stamina
- Manual dexterity & a good sense of balance
- Ability to work with heavy materials
- Ability to get along well with co-workers

DID YOU KNOW?

If you have a good eye for recognizing patterns, lines and proportions, this is a great asset for a bricklayer. In this career, you can be self-employed or work for construction companies and bricklaying contractors.
